żelowy

Lynia®

Lynia®

**30% AHA** acid peeling is intended for the care of all skin types, especially acne, oily and prone to clogging. It also works well on dry skin, with signs of aging and skin damaged by excessive exposure to sunlight. The cosmetic intensively exfoliates, evens out the color and restores radiance and youthful appearance, preparing the skin for the application of nutrients.

Formulation based on mandelic acid (10%) and acids: lactic, glycolic, citric and tartaric - acquired, among others, from standardised extracts of passion fruit, lemon, grape and pineapple. AHA acids improve the hydration of the stratum corneum and sti-

The peeling contains, among other components, concentrated extract of passion fruit, lemon, grape and pineapple standardized for the content of acids: lactic, glycolic, citric and tartaric. Besides the fruit extract, the peeling consists of acids glycolic, lactic, almond and citric.

BOOY

**UREA** The NMF ingredient, that is natural skin moisturizing factor, is responsible for its proper hydration. It exfoliates horny layers of the epidermis, increases permeability of horny layer which makes the penetration of biologically active substances easier. It softens and makes the skin more elastic. Urea is created in the final stage of proteins metabolism. It is a completely natural substance eliminated from the organism not only in the form of urine, but also sweat. Urea used in the cosmetic industry is of synthetic origin. As an NMF ingredient (natural moisturizing factor) it is responsible for a proper level of skin moisturizing. Owing to urea the skin does not exfoliate and it is not dried, maintaining appropriate protective properties.

**SALICYLIC ACID** Salicylic acid contained in the cream has a so dissolve in fats, in addition to the exfoliating include the ability to penetrate through the hair follicles. By this very helps in the treatment of acne. Unclogs pores and reduces the formation of pimples, while cleansing the skin. Due to the fact that salicylic acid is more genial than AHAs can be used for the care of even sensitive and dry skin.

#### EXFOLIATING AND MOISTURIZING CREAM WITH UREA (10%), SALICYLIC ACID (2%) AND LACTIC

The cream is intended for dry and exfoliating skin. It is especially effective for calloused parts of the skin such as feet, knees or elbows.

## Damascus rose stem cells

Damascus rose stem cells is an active substance which is perfect for sensitive, dry skin with signs of aging, which requires intensive regeneration.

By stimulating the skin they extend the life of individual cells, obtaining a smooth, firm and youthful-looking complexion.

Damascus rose stem cells abilities:

Anti-wrinkle – makes wrinkles and crow's feet less visible.

Regenerative – boost synthesis of collagen, fiber and glycoproteins in extracellular matrix.

Firming - increasing the density of the dermis, helps restore and enhance the proper functions of the skin and increases its resistance.

Lightening and depigmentation  
*all year round*

In addition to inhibiting melanogenesis, CYWHITE G targets molecules involved in the absorption of melanosomes by keratinocytes and then their degradation inside the keratinocytes. 87% of volunteers who tested it found their skin tone more luminous.

What makes it unique?

The brown algae *Cystoseira tamariscifolia* possesses branches covered in spines which become iridescent when put into water, hence the name, Rainbow Algae. Its harvested, 100% by hand, meets ORGANIC, COSMOS standards.

**MULTI BRIGHTENING FACE BOOSTER**

A booster designed for the care of all skin types. Rich in substances with a brightening and depigmenting effect, improving the color and appearance of the skin. In addition, it has a moisturizing, regenerating and protective abilities.

PRODUCT CODE: NG-0008030  
EAN: 5900718901415  
VOLUME: 50 ML/3.0 FL. OZ.  
EXPIRY DATE: 24 MONTHS FROM THE PRODUCTION DATE

**MULTI BRIGHTENING FACE CREAM**

Multi Brightening Face Cream is a product that thanks to its active substances has a brightening and depigmenting effect, it also improves skin tone and appearance. This cream is suitable for every skin type.

PRODUCT CODE: NG-0007050  
EAN: 5900718901383

# CHARACTERISTICS & BIOLOGICAL ACTIVITY

The filtrate is extracted from snail secretions following a specifically designed method, which was developed with the French National Institute for Agricultural Research (INRA). During times of stress, snail produces secretions enriched in bioactive compounds. We use a mechanical stress, additive-free process\* to produce our precious filtrate.

\* The snails used during the extraction process are handled with great care and left unharmed.

Snail secretions are a treasure of nature. It gives to snail its regeneration capacity. In cosmetics, the filtrate is used as a powerful and natural active ingredient that helps to protect and renew skin cells.

The filtrate is rich in Allantoin, a substance well-known for its moisturizing, rejuvenating and soothing properties.

## SKIN CARE BENEFITS

Snail secretions contain all the key elements to strengthen human skin :

- Collagen
- Elastin
- Glycolic acid
- Antimicrobial peptides
- Vitamins
- Proteins

# GRAPEFRUIT & STRAWBERRY

## CAFFEINE

Caffeine is used mostly in anti-cellulite products due to its abilities to stimulate circulation (prevents swelling) and to invigorate lipolysis/anti-lipogenesis. It has great influence on blood flow and fat cells volume. Caffeine stimulates metabolism, fat burning and reduces cellulite swellings in addition to its energetic properties..

**Strawberry seed oil** is obtained from the grains of strawberries by means of cold-pressing method and does not subsequently undergo the process of refining and filtration. It is a rich source of vitamins, non-saturated fatty acids (omega-3, omega-6, omega-9) and antioxidants (tocopherols, ellagic acid) with anticancer properties. Strawberry seed oil moisturizes, protects and nourishes the skin leaving it smooth and nice in touch. Its use reduces the loss of water through the epidermis by supplementing fatty acids. The oil is ideal for dry and mature skin. It can be used as an active substance in cosmetics (concentration up to 10%).

# Thread veins

## OIL WITH VITAMIN C - REVITALIZING TREATMENT: WILD ROSE, PLUM

Oil with vitamin C (Tetrahexyldecyl Ascorbate) is a premed serum for every day, care that is suitable for every type of skin, especially for dry, sensitive and with thread veins skin. It eases irritation, smoothes, moisturizes and slightly whitens. The oil is strongly regenerating and revitalizing. Stable vitamin C contained in it has multidirectional usage: antiaging, revitalizing and whitening. It stimulates collagen synthesis, activates keratinocyte and fibroblasts multiplying process, counteracts sebum oxidation, protects

A woman with long, vibrant red hair is shown from the chest up. She is wearing a dark green hooded cloak with a white fur trim. She is holding a pair of silver scissors in her right hand and a red string in her left hand. The background is a soft, out-of-focus blue and white, suggesting a snowy or misty environment. The overall mood is ethereal and artistic.

# *Lactobionic acid*

Lactobionic Acid is the latest skin care technology. Non-irritating Polyhydroxy Acid derived from milk sugar. Lactobionic Acid helps prevent and reverse the appearance of photoaging, including lines and wrinkles, uneven pigmentation, enlarged pores and roughness. A potent antioxidant used to prevent oxidative damage to transplant organs, Lactobionic Acid protects the skin against photoaging by inhibiting the MMP enzymes that degrade the skin's structure and strength. A natural humectant, it binds water to create a moisturizing barrier on skin, providing softness and a velvety smoothness. This ingredient is suitable for all skin types and can be used after procedures.

### OIL WITH ALOE VERA - SOOTHING TREATMENT: SWEET ALMOND

Aloe oil is a pre-made cosmetic destined for every type of the skin, especially for acne and irritated skin. The oil has strong moisturizing, emollient, germicidal and regenerating abilities. What is more sweet almonds oil contained in it smoothen, nourish and protects the skin from external factors. The cosmetic not only eases and moisturizes, but also smoothen and firms the skin and leaves it nice and soft at touch. It has gentle citrus smell.

## Gel toner with mandelic acid 5% and gluconolactone 4%

Exfoliating and brightening gel toner with almond acid and gluconolactone is recommended for daily skin care. It is good for skin that needs cleansing, refreshment and brightening. Gently exfoliates, tones the skin and balances bacterial flora. It regulates sebum production, calms the skin and does not irritate it. Its gentle gel consistency makes it comfortable to use.

**Mandelic acid** has exfoliating, antibacterial and anti-ageing properties. It brightens discoloration caused by sun rays, age spots, eczema and acne spots. It rebuilds and regenerates the skin by moisturizing it.

**Gluconolactone** is a natural antioxidant which protects the skin, accelerates the process of cells regeneration and eliminates irritations. It has firming abilities, makes the skin more flexible and soft.

**Hyaluronic acid** by binding water in the epidermis, it prevents the creation of wrinkles and provides elasticity. What is more, it holds water in the organism as well as the level of tissue fluid contained in the extracellular matrix.

**D-Panthenol** moisturizes and firms the skin. It soothes irritations and inflammations. It also enhances epidermis regeneration and wound healing.

**Niacinamide (vitamin PP)** used in cosmetics regulates skin's hydration, enhances its flexibility and has anti-ageing abilities. It decreases discolorations left on the skin and prevents new blemishes from occurring. It decreases sebum synthesis and reduces number of comedones.
