

SKINTRÄ

SKIN TRANSFORMATION

About brand

A brand, which aimselves to improve the appearance and condition of the facial skin, and therefore, improving well-being without the necessity of leaving the home.

— Skin Transformation

SKINTRÁ – POLISH COSMETIC BRAND

All SkinTra cosmetics are created in Poland. This means that the products are produced according to the standards set in the European Union. We can guarantee the quality of our products.

We had this chance to get to know your needs and skin problems. Our mission is to strive for normality, not perfection, and it is possible. This is what SkinTra is all about.

Our history

The decision to develop our own cosmetics was not taken immediately. In fact, SkinTra has its origins in **2019**, when Janusz, the **creator of Cosibella**, brought up this topic in a conversation with **Natalia**, (cosmetic chemist, she consulted as a cosmetologist at the time).

Because she had direct contact with clients, she knew very well what they liked and disliked and what problems they were struggling with. Work on the brand itself began in 2020. Natalia officially became the manager of the SkinTra project and oversees it to this day.

From the very beginning, Natalia already had a plan for the cosmetics that Cosibella would create. SkinTra cosmetics have been designed with you in mind, so Cosibella beauticians and our clients have had the opportunity to test SkinTra prototypes.

A close-up photograph of lavender flowers, showing the small, purple blossoms on thin, green stems. The background is a soft, out-of-focus brownish-orange.

Our brand values

Nature and technology combination

Today, more and more companies are seeking to combine these two areas. In our opinion, this is a great trend that we are following, and we have definitely succeeded. Most SkinTra cosmetics are made from natural raw materials. We aimed for a strong effect and high concentrations of active ingredient.

High concentrations of ingredients

We never doubted this and from the very beginning we knew that SkinTra cosmetics would have a high concentration of active ingredients. After all, first of all, we wanted the products to be highly effective. After all, we named our brand SkinTra (Skin Transformation) for a reason.

Simple ingredient list

Cosmetics focused on strong action (for example, exfoliating or anti-aging) have very short and simple ingredient list.

Versatility

Our products are not intended for any particular gender, age or skin type. The key to effective and efficient work is the method of use. That's why one product can moisturize, brighten and reduce acne at the same time.

No fragrance

We wanted SkinTra cosmetics to be for everyone, which is why we ended up not adding essential oils or ready-made fragrances to our cosmetics.

Get to know our products

BRIGHTONER

Year-Round Acid Toner 9%

exfoliation accelerator
pigmentation lightening
illumination
prevention of hyperpigmentation
reduce pimples and blackheads

MANDELIC ACID 5%
KOJIC ACID 1%
TRANEXAMIC ACID 2%
AZELOGLYCINE 1%
VITAMIN C 1%

Year-round acid tonic intended for year-round home care. The product shows no phototoxic or photosensitizing potential.

Best for dull, sallow skin with discoloration, a tendency to pimples and blackheads. It can be used regardless of the skin type.

■ ■ □ □ □ □ the power of exfoliation
■ ■ ■ ■ □ □ the power of lightening
■ ■ ■ ■ ■ □ anti-acne strength

DESTRUCTOR

Year-Round Acid Peeling 24%

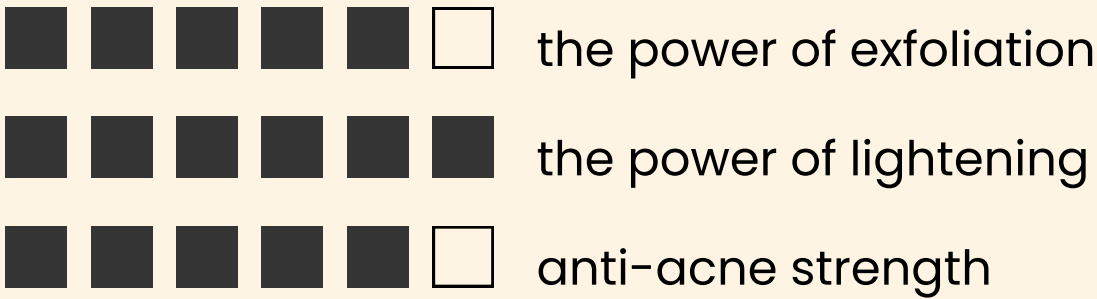

exfoliation
pigmentation lightening
prevention of hyperpigmentation
reduce pimples and blackheads

MANDELIC ACID 20%
KOJIC ACID 1%
TRANEXAMIC ACID 2%
AZELOGLYCINE 2%
VITAMIN C 1%

Acid peeling intended for year-round home care. The product shows no phototoxic or photosensitizing potential.

The high concentration of acids exfoliate or causing visible exfoliation, which is responsible for effective lightening of discoloration and smoothing the skin structure.

BRIGHTONER

The mildness of acids can be viewed as an oxymoron. In this case, it has become an attribute of a tonic, characterized by high activity in a subtle edition.

DESTRUCTOR

From now on, the visible effects after the first treatment will not be associated only with a visit to a specialist. Be careful, this peeling breaks stereotypes.

EVERYTHING WHAT YOUR SKIN WILL LOVE

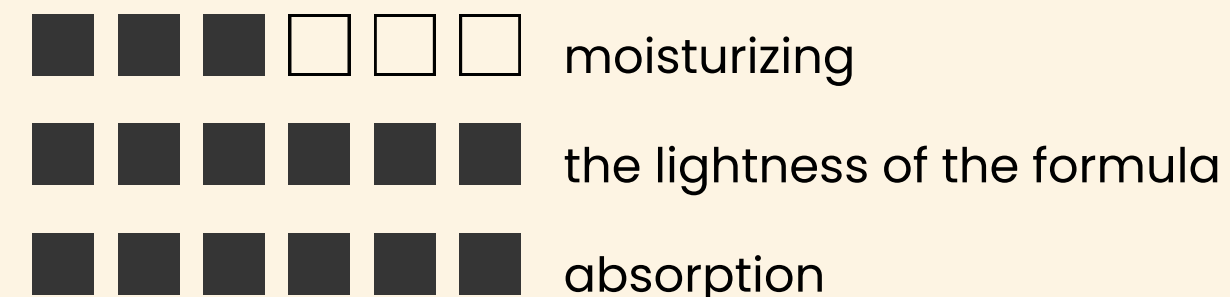

Prebiotic Caring Toner

microbiome care
moisturizing and nourishing
soothing irritation
pigmentation lightening
smoothing
adjusting the pH

GALACTOMYCES FERMENT FILTRATE 5%
AZELOGLYCINE 3%
INULIN 2%
NIACINAMIDE 2%

A tonic's task is not only to restore the physiological pH of our skin. It has a multifunctional use based on multifunctional ingredients. Thanks to the ultra-light formula of the emulsion, it can be used as a cream that has moisturizing, smoothing and softening properties which are mainly achieved through hydrophilic ingredients.

LET YOUR SKIN DRINK UP

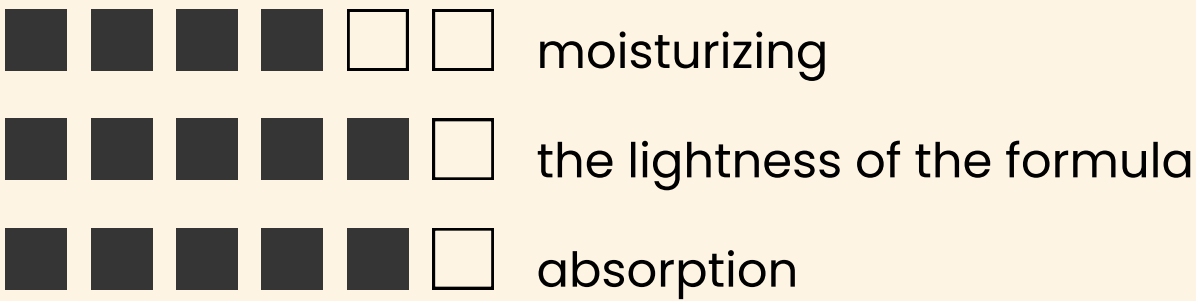

Prebiotic Moisturizing Cream

microbiome care
moisturizing and softening
soothing irritation
regeneration
sebum control

GALACTOMYCES FERMENT FILTRATE 15%
INULIN 2%
NIACINAMIDE 5%
AZELOGLYCINE 3%
SACCHARIDE ISOMERATE 3%

The richness of prebiotics and ferments intensively improves the skin microbiome, reduces bacterial acne, soothe eczema and stimulate regeneration. Hydrophilic active ingredients have a strong effect on sebum production, reduce active acne, soothe and moisturize.

LET YOUR SKIN DRINK UP

Moisturizing alone is not enough. We added serum to this cream. If your skin does not tolerate excess products, we have a candidate for its favorite.

EVERYTHING WHAT YOUR SKIN WILL LOVE

When you have time and when you are short of it. Element of multi-stage care and complete one-stage care. A multifunctional cosmetic of a new dimension.

LET YOUR SKIN FEED ON

Prebiotic Nourishing Cream

microbiome care
moisturizing and nourishing
soothing irritation
smoothing and softening
repairing a skin barrier

GALACTOMYCES FERMENT FILTRATE 10%

INULIN 1%

PANTHENOL 5%

SACCHARIDE ISOMERATE 3%

AZELOGLYCINE 2.5%

BIOCERAMIDYL PURE

ALLANTOIN

A light nourishing cream with a wide range of care. Recommended mainly for people whose skin needs strong moisturizing, and at the same time does not like "oily" formulas. It contains NMF ingredients, i.e. the Natural Moisturizing Factor, and ingredients that restore the balance of the microbiome. In a physiological and active way, it deeply moisturizes and regenerates the skin.

moisturizing

the lightness of the formula

absorption

LIGHT YOUR SKIN

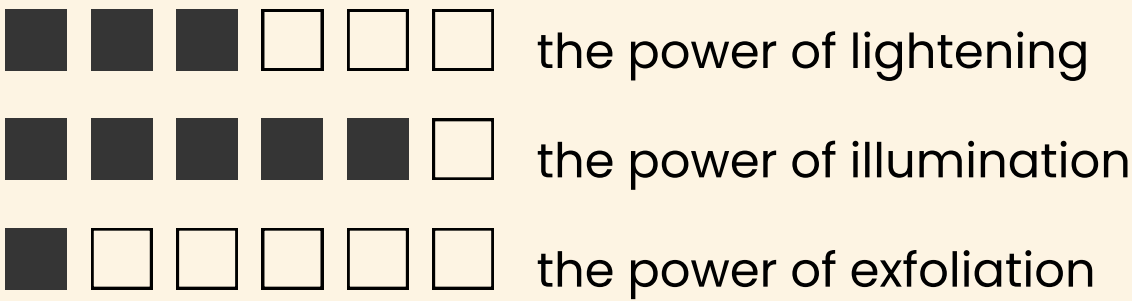

Serum with Vitamin C 20% and Ferulic Acid

antioxidation
pigmentation lightening
sebum control

VITAMIN C 20%
VITAMIN E
FERULIC ACID
HYALURONIC ACID

Serum with the most active form of vitamin C and a complex of antioxidants, i.e. vitamin E and ferulic acid. The product has strong brightening properties, improves skin tone, reduces free radicals and accelerates cellular metabolism. It is intended for all skin types.

LIGHT YOUR SKIN

Just a vitamin bomb. High concentrations, good penetration, strong action, multi-tasking - seemingly simple, but it expresses the nature of this serum.

LET YOUR SKIN DRINK UP

A caring combination of bodyguard and doctor for your skin.

LIQUID HAPPINESS

Face & Eye Serum with Retinal 0,3%

improvement of firmness and
elasticity

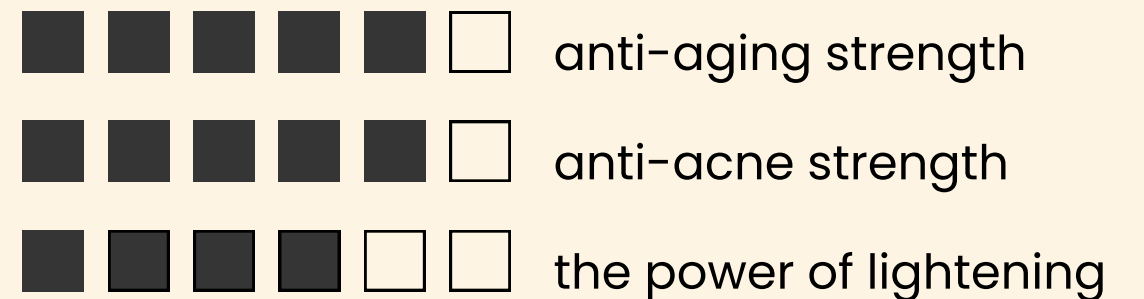

acne reduction

pigmentation lightening

RETINAL 0.3%

A serum with retinal. It shows a higher activity and, at the same time, a lower irritating potential than retinol. That is why it is recommended for beginners and advanced people in the use of retinoids, also under the eyes. The formula is also unique. The combination of squalane and watermelon seed oil allowed for quick absorption, no unpleasant and greasy film. Thanks to this, it is intended for all skin types.

REVIVER

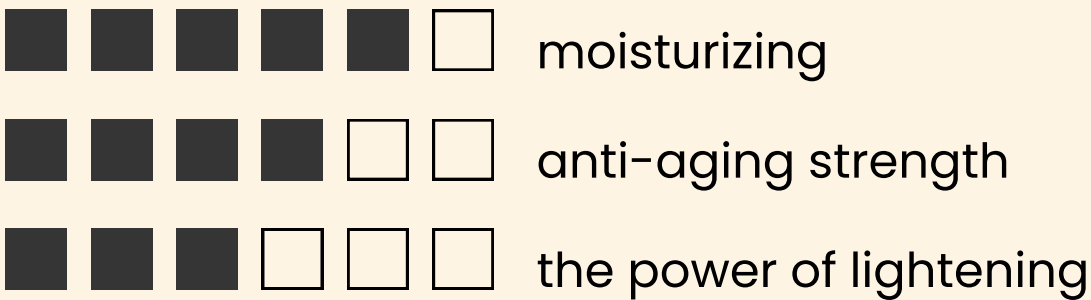

Revitalizing Serum

moisturizing and softening
anti-aging
regeneration and reducing
inflammation
pigmentation lightening
sebum control

GALACTOMYCES FERMENT FILTRATE 30%
LACTOBIONIC ACID 2%
AZELOGLYCINE 10%
NIACYNAMID 5%
PANTHENOL 2%

A water serum with a formula full of active ingredients. The product is an ideal proposition to start anti-aging care and will be great for improving the level of hydration, even on very dry skin. Retains moisture in the epidermis and draws it from the environment. And by accelerating the physiological process of exfoliation, it prevents the formation of closed comedones.

FUNDACJA LAS NA ZAWSZE

Ecology, supporting the environment and caring for it are very important things for us. Therefore, we decided to cooperate with the fund "Forest Forever". It is a foundation dedicated to planting new forests on the territory of Poland.

What are they planting? First of all, deciduous trees – they are resistant to environmental factors.

And now the most important thing. For each cosmetic product produced, 0,5 m² of forest will be planted. By taking care of your skin, you can also do your part to help the environment.

1 cosmetic product = 0,5m² of forest

Tests

Phototoxicity and photoallergy studies.

We decided to do this research on our acid products.

After the tests, the skin is monitored for phototoxic and/or photoallergic reactions, such as fluid-filled vesicles or increased erythema.

Before the test, the skin phototype

of each subject is determined and the reaction to irradiation is checked without the test cosmetic.

SkinTra declares the lack of phototoxic and photoallergic effects of the Year-round Acid Tonic and Peeling. However, our declaration is the result of research carried out in this area. A total of 30 probands with phototypes I-III participated in the study. **No adverse reaction occurred in any of them.** This means that the products can be used ***all year round***, even in summer.

Products with **exfoliating acids** have long declared the absence of phototoxic and photoallergic effects.

Phototoxic test: A mass of the product is applied to the area of the skin, and then the place is illuminated by a lamp that emits UVA, UVB and UVC radiation.

Photoallergic test: It consists in putting on two rows of epidermal tests with the tested product for 24 hours. Then, after removing the epidermal tests, each place is irradiated with UV radiation on a slightly wider surface than the skin previously covered with the flap.

Reviews

The tonic is FANTASTIC! I have been using it for about 2 months both as a serum under the cream and sometimes as a cream itself. It soothes the face beautifully, the skin is moisturized, nourished and calmed down. He will definitely stay with me for longer.

Martyna

The serum is watery, but also very light and absorbs quickly. After repeated use, you can already notice an improvement in the appearance of the skin: the pigmentation of hyperpigmentation decreases, and new blemishes do not appear as often.

Karolina

Fantastic night cream. Rich, enveloping, giving a feeling of comfort on the skin. Nice packaging and composition. I still have half the package and I am already thinking about the next one.
